My apologies for being such a nuisance, but this file only goes back to 1995 as well. Are you sure you sent the correct file?

Kind regards,

Chris

I apply searches throughout the Psycinfo database, but would like to request from what year onwards abstracts are reliably indexed (or the coverage estimate accompanying the years). The website only states "virtually 100%" is covered from 1995 onwards, but I would like to request some more details to inspect how far back I can reasonably go with my searches.
